The Economic Bulletin for Latin America, published by the secretariat of the Economic Commission for Latin America, appears twice yearly, with an annual Statistical Supplement from volume V onwards. In 1962 two bilingual Statistical Supplements were published separately, each with the corresponding table of contents. The essential purpose of the *Bulletin* is to provide a résumé of the economic situation of the region designed to supplement and bring up to date the information published in the Commission's annual economic surveys. Apart from this summary, which is to appear in every issue, special articles on different subjects related to the economy of Latin America are included, as well as informative and methodological notes.

Since 1964 the statistical information has been furnished separately in the *Statistical Bulletin for Latin America.*

The ECLA secretariat assumes entire responsibility for the *Bulletin.* Its content—intended for the information both of public officials and of the general reader—was not submitted to the Commission's member Governments before publication.
